Wedding Styling Information

We often get asked what does "Wedding Styling" mean & what is the process?

Here is a basic break down... you come to us with your ideal wedding decor dreams, or we help you to create your own. We then put together a proposed design, followed by delivering the concept on your special day!

INITIAL CONSULT

First we arrange an initial consult where we discuss the details you already have for your wedding day OR if you need guidance as to how to start, we can also guide you from this meeting. It usually requires us access to your Pinterest board, plus questions about what you want to achieve for your special day...

andiimihayevents@hotmail.com

STYLE & DESIGN
PROCESS

From our meeting, I go away & commence the design process, usually working on a quote, concept board & floorplans to help explain the vision we want to create for you. Once you are happy with the design, you approve!

DELIVER YOUR VISION

Closer to your big day we arrange another meeting, usually onsite at the venue/s just to run over all of the details ensuring we have everything covered. set-up can commence a couple of days prior, most of the wedding day, followed by pack-downs that evening & the next morning!
